ITMLV

WINDOW VACUUM 150 ML

The iTools Window Vacuum (ITMLV) is a versatile solution for both indoor and outdoor cleaning, capable of washing, vacuuming, and drying. This machine offers an autonomy of 30 minutes and freedom of movement as it is powered by a lithium battery. As well as having an efficient suction capacity, it is equipped with a removable 150ml tank for dirty water, optimising glass cleaning.

Main features:

- > Ability to wash, vacuum and dry;
- > Detachable 150 ml tank for dirty water;
- > Optimises glass cleaning.

Packaging content

- > Spray bottle;
- > Microfibre cloth with holder;
- > Charger.

ITTR2500

GARDEN SHREDDER 2500W

The iTools 2500W Garden Shredder is a robust solution for shredding green waste outdoors, ideal for branches, leaves and pruning debris. This equipment offers 2500W of power and an efficient cutting system, allowing for fast and effective shredding. Not only does it guarantee constant performance, but it is also equipped with a 45-litre collection bag, making it easier to manage waste and helping to keep the surrounding area cleaner and more organised.

Main features:

- › Easy to move around;
- › For shredding thin branches;
- › 45-litre collection bag.

Packaging content:

- › Collection bag;
- › Wheels (x2);
- › Hubcaps (x2);
- › Support bar;
- › Shaft;
- › Push stick;
- › Set of washers and screws.

MEASUREMENT

MEASURING TAPES

iTools' measuring tapes, available in 3m, 5m and 8m, offer practical and precise solutions for various types of measurement.

Compact, durable and ergonomic, each tape comes equipped with an impact-resistant case and an effective locking system, providing stability and ease of use for different tasks.

Main features:

- > Versatility in measurement;
- > Impact-resistant case;
- > Locking system;
- > Accurate reading and stability;
- > Ease of transport and use.

CORDLESS SCREWDRIVER 3,6V

This 3.6V screwdriver from iTTOOLS offers an efficient and quick way to drive screws with precision.

With full control over torque, this machine easily adapts to a variety of materials and fastening types.

Equipped with reversible direction of rotation, this model can be adjusted to your needs, ensuring consistent results in any task. Furthermore, its quick stop function provides additional safety, allowing you to instantly stop the screwdriver when necessary.

The magnetic bit holder with spindle lock makes changing screwdriving bits quick and easy, providing greater efficiency and practicality during work.

Main features:

- > Reversible direction rotation;
- > Quick-stop function;
- > Magnetic bit holder.

LED light for work surface illumination
