

VITO

PRO POWER

**1500W
SLIDING MITRE
SAW**

VITO PRO-POWER sliding mitre saw is the ideal solution for cutting.

This appliance has 1500 watts of power and a rotation speed of 5000 rpm, ensuring great accuracy and reliable cuts.

It is equipped with a 210 mm diameter blade, which ensures high cutting capacity, and laser guide for more efficient and accurate cuts.

It performs angled cuts of 45° and - 45° reaching a depth of up to 210 mm, always ensuring maximum versatility and accuracy.

Robust and compact, this sliding mitre saw is the right choice for tasks that require total accuracy.

VISCME210 1500W - 210 mm sliding mitre saw

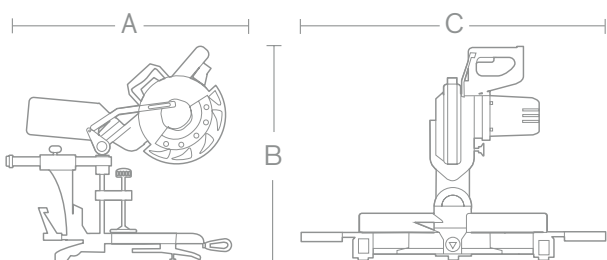

Technical data:

Power:	1500W
Supply voltage:	230V AC 50Hz
No-load speed:	5000 r.p.m.
Blade diameter:	210 mm
Blade hole diameter:	30 mm
Blade thickness:	2,8 mm
Number of teeth:	24
Cutting angle (miter cut 0°)	
> Bevel 0°	310 x 60
> Bevel 45	310 x 36
Cutting angle (miter cut 45°)	
> Bevel 0°	210 x 60
> Bevel 45°	210 x 36
Sound power level (L _{WA}):	107 dB
Sound pressure level (L _{PA}):	94 db
Insulation class:	II
Weight:	11 kg
Dimensions:	655(A) x 930(B) x 500(C)mm
Weight with packaging:	13,4 kg
Packaging dimensions:	725 x 455 x 365mm
EAN code:	5604612712716

Packaging content:

1x	Sliding miter saw VISCME210
1x	210 mm Wood cutting saw blade
2x	Hex keys
1x	Dust and shavings collection bag
1x	Clamp
1x	Miter locking handle
2x	Plastic side support
1x	Set of carbon brushes
1x	Set of washers for saw blade

Double slide rail

Allows the cutting head to be moved along the workpieces, allowing to make larger cuts.

Adjustable turntable from -45° a $+45^\circ$

Bevel cut at 45° to both sides

Indicates the selected angle on the scale placed on the slide rail support.

Dust and shavings collection bag

Fixing clamp

Carrying handle

Laser guide

ensures that you cut the workpiece with the desired orientation.

Accessories for sliding mitre saw

Vito has several accessories at your disposal that you can purchase separately, either for the loss, wear or breakage of the accessory in question.

> Tungsten carbide tipped blade

VILALC20V

20 MT GREEN SELF-LEVELLING CROSS-LINE LASER

VITO's self-levelling cross-line laser projects 2 green light lines, one horizontal and one vertical, which can be used simultaneously or alternated independently.

Equipped with a Class 2<1mw laser, it features a working range of 20 meters and an accuracy of +/- 0.5mm/m.

This appliance is intended for levelling interior and exterior surfaces such as walls, floors and ceilings, among others.

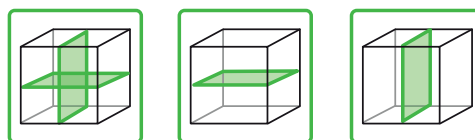

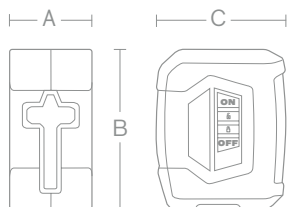

In addition, it is powered with 2 1.5 (AA) rechargeable batteries with a 3-hour autonomy and has a 1/4" tripod fixing thread.

EASY TO USE

Technical data:

Voltage:	3 V
Battery type:	2 x 1,5V LR06 (AA)
Autonomy:	> 3 h
Laser wavelength:	510 ~520 nm
Laser output power:	Class 2, < 1 mW
Laser line width:	100 lux, 3mm/ 5m
Working range:	20m
Accuracy:	± 0.5 mm / m
Levelling time:	< 5 s
Levelling range:	4°
Tripod thread:	1/4"
Operating temperature:	0° ~ 40°C
Weight:	0,28 kg
Dimensions:	55(A) x 85 (B) x 71 (C)mm
Weight with packaging:	0,43 kg
Packaging dimensions:	121 x 178 x 63mm
EAN code:	5604612712839

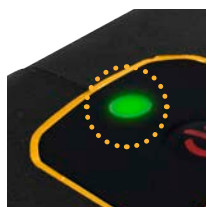

Packaging content:

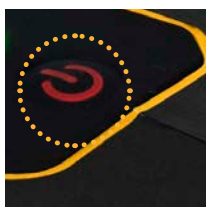

1x	Laser VILALC20V
2x	Alkaline batteries 1.5V LR06(AA)

Laser beam outlet

Self-levelling LED indicator

Laser line selector button

VILAPHVT20V

3X360° GREEN SELF-LEVELLING CROSS-LINE LASER

VITO's 3X360° self-levelling cross-line laser projects 3 green light lines in 360°, horizontal, vertical and side one, which can be used simultaneously or alternated independently. Equipped with a Class 2<1mw laser, it features a working range of 20 meters and an accuracy of +/- 0.5mm/m.

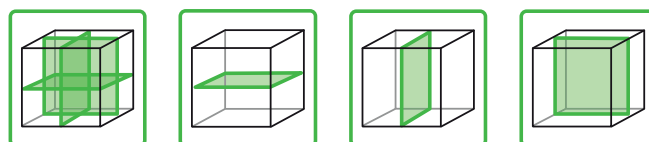

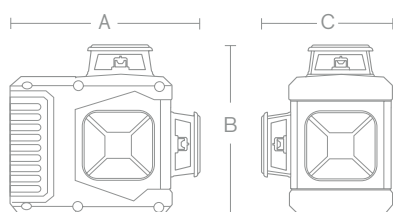

This appliance is intended for levelling interior and exterior surfaces such as walls, floors and ceilings, among others.

In addition, it is powered by 4 LR06 (AA) 1.5 V alkaline batteries with a 3-hour autonomy and has a 1/4" tripod fixing thread.

Technical data:

Voltage:	6 V
Battery type:	4 x 1,5V LR06 (AA)
Autonomy:	3 h
Laser wavelength:	510 ~520 nm
Laser output power:	Class 2, < 1 mW
Laser line width:	100 lux, 3mm/ 5m
Working range:	20 m
Accuracy:	± 0.5 mm / m
Levelling time:	< 4 s
Levelling range:	4°
Tripod thread:	1/4"
Operating temperature:	0° ~ 40°C
Weight:	0,5 kg
Dimensions:	85(A) x 110(B) x 110(C)mm
Weight with packaging:	1,1 kg
Packaging dimensions:	176 x 124 x 150mm
EAN code:	5604612712846

Packaging content:

1x	Laser VILAPHVT20V
4x	Alkaline batteries 1.5V LR06 (AA)

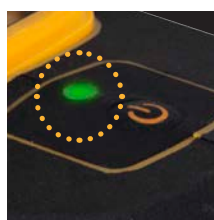

Vertical laser beam outlet

Horizontal laser beam outlet

Transversal laser beam outlet

Self-levelling LED indicator

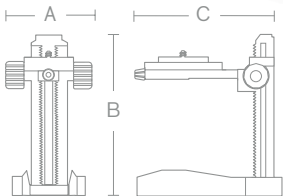

VISLA LASER BASE

VITO's magnetic base allows simple and quick fixing of the laser level, suitable for 1/4" threads. It can be rotated 360° which makes it easy to adjust the laser level and it is also possible to adjust the height and angle in the safest and most precise way.

Technical data:

Thread:	1/4"
Base:	Magnetic
Rotating base:	360°
Adjustable in:	Height and angle
Dimensions:	85(A) x 125(B) x 130(C)mm
Weight:	0,21 kg
Weight with packaging:	0,27 kg
Packaging dimensions:	128 x 139 x 86,8mm

The VITCRC coaxial and network cable tester has been designed for network cables maintenance and cable testing, enabling a quick check of RJ45 connectors on broadband networks and BNC coaxial cables.

The following cables can be tested:

- EIA/TIA 568A/568B RJ45 cable;
- BNC (10 Base-T) cable;
- 100Base-TX, 1000-Base-Tx cables;
- Token Ring, AT&T258A, coaxial cable

Features:

- Visible LED indicators;
- Compatible connectors: RJ45 and BNC;
- Compatible cables: twisted-pair and coaxial;
- Powered by 9V alkaline battery (not included).

HAND TOOLS

**NEW RANGE
CRIMPING AND WIRE
STRIPPING PLIERS**

The new full range of Crimping Pliers is designed to cut, strip and crimp cables safely, ensuring high quality results. They are versatile and suitable for various types of needs in telecommunications and electricity, from network cables, solid cables, modular plugs, pin-end terminals and insulated terminals. These pliers stand out for their ease of handling thanks to their soft handles and their sturdy steel body, increasing the comfort while working and ensuring a longer service life. They have the advantage of the ratchet mechanism, thus getting a precise and symmetrical crimping, as well as easy unlocking in case of mishandling.

NETWORK CABLES PLIERS

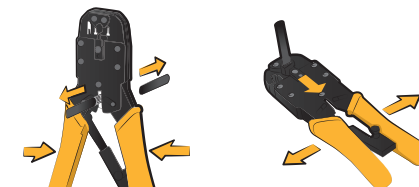

Features:

- > Professional Pliers for cutting and stripping network cables;
- > It has blades for cutting and stripping and an additional stripping device for rounded corners;
- > Equipped a ratchet mechanism, thus getting a consistent and high-quality crimping;
- > Carbon steel body;
- > Polypropylene handle.

MULTI-MODULAR PLUG CRIMPER

- > Conductor cross section: 10-120mm², 7-4/04AWG

This full range of wire Stripping Pliers is suitable for cutting, stripping and crimping from the hardest to the softest wires and cables.

Easy to handle due to the ergonomic shape of the handle, these pliers provide greater comfort and control in all tasks. They also include their own blades, designed to obtain a precise cut.

This is actually a range of pliers that represents maximum safety and efficiency.

Features:

- > Type of terminals: insulated and non-insulated;
- > Cr12MoV steel jaws. For all wire with diameter between 10AWG and 22AWG (0.5 and 6.0mm²);
- > Adjust the swivel knob to strip wire up to 22AWG (0.2mm²);
- > Blades with special heat treatment. Their high quality provides an efficient cut. Suitable for copper.
- > Conductor cross - section: Insulated terminals: 10-22 AWG (0.5 ~ 6mm²). Non-insulated terminals: : 12-10 AWG (4 ~ 6.0mm²) | 22-14 AWG (0,5 -2,5mm²).

RECHARGE FOR HALF-FACE MASK RESPIRATORS

RECHARGES FOR HALF-FACE RESPIRATORS WITH DOUBLE A1P3 FILTER – 2 pieces

REF ^a		EAN. CODE
VIF757A1P3	1	5604612715175

Filter class: **A1P3**

Certification: **EN 14387:2004+A1:2008**

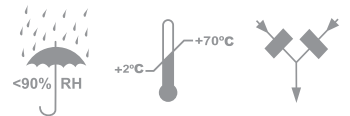

Filter for gases:

- **Type A1** - Application: organic vapours, solvents with boiling point > 65°C

Filter for particulates:

- **P3 protection** - Provides high efficiency (99.95%) in particulate retention.

Note: These recharges are suitable for spraying (plant protection products, for example).

CE 0161

RECHARGES FOR HALF-FACE RESPIRATORS WITH DOUBLE ABEK1P3 FILTER – 2 pieces

REF ^a		EAN. CODE
VIF757ABEK1P3	1	5604612715182

Filter class: **ABEK1P3**

Certification: **EN 14387:2004+A1:2008**

Filter for gases:

- **Type A** - Application: Organic vapours, solvents with boiling point > 65°C;

- **Type B** - Application: Inorganic gases and vapours;

- **Type E** - Application: Sulphur dioxide and other inorganic gases and vapours

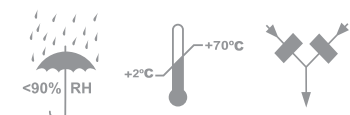

(acid products with pH < 7);

- **Type K** - Application: Ammonia and its derivatives (chemical products with pH>7).

Filter for particulates:

- **P3 protection** - Provides high efficiency (99.95%) in particulate retention.

Note: These recharges can be used in a wide range of applications due to their high protection efficiency.

CE 0161

Recharges are for the exclusive use of the Half-face mask respirator with double filter (VIM757)

VITO

PRO POWER

SILENT AIR COMPRESSORS

THE PORTUGUESE
1988
LEADER
OF THE PACK

SILENT AIR COMPRESSORS

VITO's silent oil-free air compressors have been created to provide maximum performance and quality with less noise. They are equipped with a heat dissipation fan and overload protection to prevent the appliance from overheating, their motor power ranges from 0.7 hp to 1.5 hp to perform all your tasks in a safe and professional way.

The rubber feet protect the surfaces from scratches and stabilise the compressor by absorbing all vibrations. Easy to use and transport, they contain tanks between 6L, 24L and 50L.

Main features:

- > Low-noise, oil-free motor;
- > Quick-release fittings;
- > Corrugated filter;
- > On/off switch;
- > Thermal protection.

Technical data:

Motor power:	0,7 hp / 0,50 kW
Rotation speed:	1400 rpm
Operating pressure:	8 Bar / 115 psi
Air displacement:	89 L / min
Tank capacity:	6 L
IP code:	IP20
Sound power level (L _{WA}):	79 dB (A), k=3
Sound pressure level (L _{PA}):	57,5 dB
Product weight:	13,7 kg
Product dimensions:	460(A) x 470(B) x 145(C)mm
Weight with packaging:	15,5 kg
Packaging dimensions:	460 x 230 x 495 mm
EAN:	5604612711184

Packaging content:

- > 4x Rubber feet;
- > Air filter;
- > Set of nuts and washers.

SLIDING MITRE SAW 2200W - 305mm

THE PORTUGUESE
19  88
LEADER
OF THE PACK

The VITO's sliding mitre saw (VISCME305) is the ideal tool for different cutting operations on wood, boards and similar materials. This sliding mitre saw ensures precise and reliable cuts thanks to its 2200 watts and 3900 rotations per minute (rpm) motor. It comes fully equipped with a 305mm diameter wood cutting saw blade, hex key, dust and shavings collecting bag, carbon brush set and washers set for the saw blade. To offer ensure stability and make easier to cut, this model offers a double slide rail, extension wings on both sides and rear, a turntable and a clamp.

Dimensions:	1180(A) x 490(B) x 1020(C) mm
Weight with packaging:	28,5kg
Packaging dimensions:	750x685x580mm
EAN code:	5604612709365

Packaging content:

1x	Sliding miter saw VISCME305
1x	305 mm Wood cutting saw blade
1x	Hex key
1x	Dust and shavings collection bag
1x	Clamp
1x	Rear support bar
1x	Right extension wing
1x	Left extension wing
1x	Set of carbon brushes
1x	Set of washers for saw blade

Double slide rail
Allows the cutting head to be moved along the workpieces, allowing to make larger cuts

Adjustable turntable from -45° a + 45°

Bevel cut at 45° to both sides
Indicates the selected angle on the scale placed on the slide rail support.

Side extension wings

Dust and shavings collection bag

Fixing clamp

Carrying handle

Laser guide
ensures that you cut the workpiece with the desired orientation.

Accessories for sliding mitre saw

Vito has several accessories at your disposal that you can purchase separately, either for the loss, wear or breakage of the accessory in question

VITO

PRO POWER

4-stroke petrol high pressure washer

250 bar 7cv

THE PORTUGUESE
19  88
LEADER
OF THE PACK

VITO PRO-POWER petrol high pressure washer is equipped with a 4-stroke engine. With 4 adaptable nozzles for different types of use and a maximum pressure of 250 bar, this high pressure washer is the best solution for all types of washing. Whether floors, boats, cars or other surfaces, it guarantees excellent cleaning results combined with low fuel consumption.

VIML70

4-stroke petrol high pressure washer

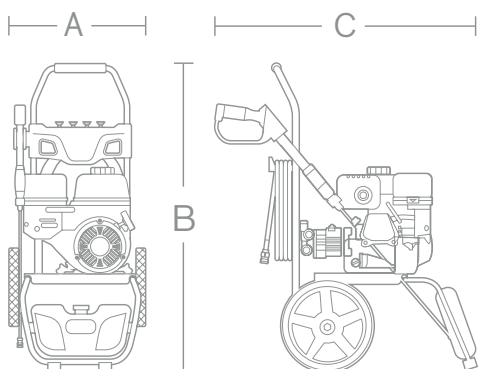

Main features:

- > Aluminium pump body, brass head;
- > 8 metres steel armed hose;
- > Carrying handle;
- > Automatic stop and adjustable jet.

Technical data:

Motor type:	4-stroke combustion
Engine power:	7 HP / 5.2 kW
Engine displacement:	207cc
Rotation speed:	3400 rpm
Fuel:	Unleaded petrol 95
Fuel tank capacity:	3,6 L
Autonomy:	2 h
Engine oil:	15W-40
Oil crankcase capacity:	1,1 L
Maximum pressure:	250 bar
Operating pressure:	180 bar
Maximum flow rate:	11,8 L/min
Flow rate:	9 L/min
High-pressure hose length:	8 m
Operating temperature:	0°~40°C
Sound power level (L _{WA}):	106 dB
Sound pressure level (L _{PA}):	92,7 dB
Product weight:	31 kg
Product dimensions:	530 (A) x 1000 (B) x 650 (C)mm
Weight with packaging:	33,5 kg
Packaging dimensions:	583 x 430 x 530 mm
EAN Code:	5604612710606

Packaging content:

- > 1x Petrol high pressure washer
- > 1x Carrying handle and set of 4 spray nozzles
- > 2x Wheel
- > 1x Spray gun
- > 1x Lance
- > 1x High-pressure hose
- > 1x Water suction hose
- > 1x Water inlet filter with foot valve
- > 1x Detergent suction filter and hose
- > 1x Hose holder
- > 1x Gun holder
- > 1x Set of screws
- > 1x Spark plug wrench
- > 1x Nozzle cleaning needle

Carrying handle
Ergonomic

Detergent tank
The petrol high pressure Washer was designed to run with almost any type of household detergents or car shampoos.

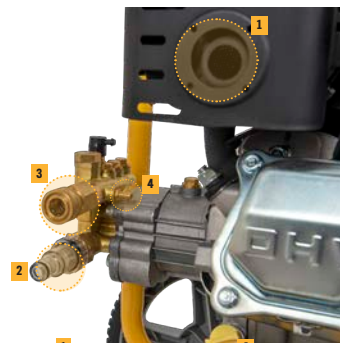

Throttle control lever
The throttle lever is used to adjust the engine's rotation speed.

Recoil starter

Fuel tank
The engine is designed to run on unleaded 95 petrol. Never use contaminated fuel or an oil and petrol mixture. Avoid dirt or water in the fuel tank. To check the fuel level and fill the tank, the engine must be stopped.

Exhaust and water inlet filter, High pressure coupling and detergent hose connector.

Transport wheels
Wheels diameter: 300 mm
Made of rigid material to withstand the most demanding floors.

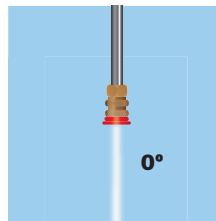

Suction hose with filter:
Length: 2,86m

Spray nozzles
Included

The Petrol high pressure Washer has 4 nozzles with different colours and spray patterns. Suitable for different needs of the user.

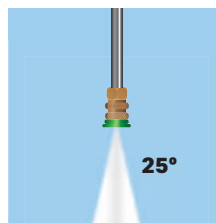

1 Spray nozzle – red
VIML65L.M.023

Features
> Jet angle: 0°
> Spray jet: narrow and powerful
> Washing area: Very small
> Suitable for: Surfaces in metal and/or cement surfaces (capable of withstanding high pressure washing). Not suitable for wooden surfaces.

+ Power

2 Spray nozzle – Green
VIML65L.M.024

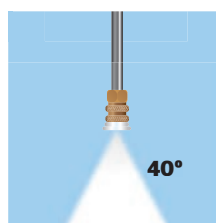

Features
> Jet angle: 25°
> Washing area: Small
> Suitable for: Surfaces capable of withstanding high pressure washing.

+ Power

3 Spray nozzle – white
VIML65L.M.025

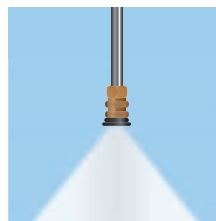

Features
> Jet angle: 40°
> Washing area: Large
> Suitable for: Any type of surface.

- Power

4 Spray nozzle – black
VIML65L.M.026

Features
> Washing area: Large
> Suitable for: Using shampoo or cleaning solutions in areas that do not require high pressure washing.

- Power

Note: Spray nozzles can also be purchased separately.

RUBBER Mallet WHITE-BLACK CONSTRUCTION

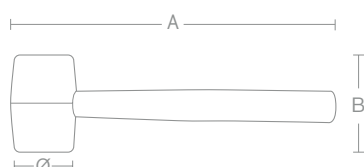

The black and white Rubber Mallet (VIMBBP450) stands out by not damaging the materials or leaving any marks during use. At each end, it is divided by two colours, one black and the other white, both have flat faces and only differ in their density. It is suitable for flooring installation and other materials that cannot be damaged and constitutes an indispensable tool for more delicate tasks.

Features:

- > Wooden handle
- > Bicolor rubber head

OXIS

OXIS

VITO SECURITY presents the OXIS range of footwear intended for users who value safety and comfort in the workplace.

These shoes or boots made with high quality materials stand out for its protection, absorption and resistance.

The toe cap is made of composite for greater comfort and protection against scratches; the double density polyurethane sole prevents wear and slipping.

Suitable for industrial, transport and warehouse work, OXIS protective footwear is the best choice for everyday use.

VITO PRO-POWER

100A FLUX-CORED WELDING MACHINE

The new VITO Pro-Power flux-cored welding machine is very practical and sturdy and stands out for its quality, reliability and robustness for welding tasks. This appliance is ideal for metallurgical or metalworking tasks and is characterised by its accuracy and excellent welding quality on stainless steel and on nickel copper and aluminium alloys. With the versatile and rigorous flux-cored welding machine, you get the best results in a simple, quick and effective way.

Main features:

- > Cooling system;
- > Thermal overload protection;
- > Welds without a shielding gas;
- > Wire feed speed controller.

MUT

MUT shoes combine all safety conditions for more comfort and protection at work. These shoes were made with high-quality materials and have a protective toecap, energy absorption of the heel region and an anti-perforation sole to prevent slipping on ceramic tile floors and ensure greater safety and protection for the feet. The light and bold MUT shoes stand out for its versatility and penetration-resistant midsole, provide the best conditions for day-to-day comfort.
